# WHISKEY

A type of distilled alcoholic beverage made from fermented grain mash. Various grains (which may be malted) are used for different varieties, including barley, corn (maize), rye, and wheat. Whiskey is typically aged in wooden casks, generally made of charred white oak. Whiskey is a strictly regulated spirit worldwide with many classes and types. The typical unifying characteristics of the different classes and types are the fermentation of grains, distillation, and aging in wooden barrels. A blended whiskey (or blended whisky) is the product of blending different types of whiskeys and sometimes also neutral grain spirits, coloring, and flavorings. It is generally the product of mixing one or more higher-quality straight or single malt whiskies with less expensive spirits and other ingredients.

## ⚙️ AMERICAN WHISKEY ⚙️

American whiskey is a distilled beverage produced in the United States from a fermented mash of cereal grain. Among the types included under this designation are bourbon whiskey, rye whiskey, rye malt whiskey, malt whiskey, wheat whiskey, and corn whiskey. All of these are made from mashes with at least 51% of their named grains.

## ⚙ CANADIAN WHISKY ⚙

Canadian whiskies are often referred to as Rye Whiskies, though rye need not be used. The majority of Canadian whiskies are blended and distilled from a selection of grains, which usually include a good proportion of rye alongside barley and corn. The spirit must be aged for at least three years.

## ❁ IRISH WHISKEY ❁

Irish whiskeys are often thought to be smooth, fruity, and triple distilled and many of them are. The Irish are widely credited as being the first to distill whiskey, though this is strictly contested by the Scots. The Irish are unique in their pure pot still whiskey. Irish single pot still whiskey is a mix of barley, malted and unmalted, distilled in a pot still. The unmalted barley gives a spicy freshness that is associated with Irish whiskey.

## ❁ SCOTCH WHISKY ❁

Scottish whiskies are among the world's most revered spirits. There are varying styles, though all can be delectable masterworks in their own right. Some are flavored heavily by peat and smoke, others are light and fruity. Coastal whiskies are often flavored by the sea and a refined salinity can be found. There is always a sweetness; sometimes in omnipresence, sometimes lurking in the substrata.
